AbbeHealth Services - is a regional nonprofit organization dedicated to providing mental health and aging services that help individuals achieve their optimum levels of independence and success.

Abbe Center for Community Mental Health, is a subsidiary of AbbeHealth Services located in Cedar Rapids, Iowa.

First Episode Support Recovery Team Leader

Responsibilities
Often people who experience psychosis go on to develop more serious forms of mental illness such as Schizophrenia. For many years it was assumed that the prognosis for recovery was poor, and that said people would likely be unemployed, lack family or social relationships, and would spend their days in institutions. Today, there is more hope than ever that people with psychosis can work, enjoy happy relationships, and live in the community. NAVIGATE is an evidenced based treatment that engages people early in the disease process to improve long term outcomes (www.navigateconsultants.org). The Team Leader facilitates a multidisciplinary team of Psychiatrist, Individual Resiliency Therapist, Family Education Therapist, Supported Education, and Community Support Specialist designed to empower and improve the lives of clients and families. The Team Leader onboards new clients, leads treatment team meetings, uses standardized fidelity tools to guide team members toward best practices, documents interactions, and connects with state officials to meet grant requirements.

Qualifications
Licensed Master’s or Independent Social Worker, Mental Health Counselor, or Marriage and Family Therapist in State of Iowa. Compassion, creative problem solving, and belief in recovery required. Strong organizational and communication skills imperative. Must pass background checks, pre-employment drug screen and have a valid Iowa driver’s license.

AbbeHealth provides equal employment opportunities to all employees and applicants for employment.
