

Edison Eating Disorder and Mental Health Services is a specialized, collaborative outpatient practice seeking a therapist with a strong interest in eating disorder treatment to join our team in Fall 2026.

This role is ideal for a new or early-career clinician seeking high-quality supervision, specialized training, and a supportive team environment to build a sustainable and meaningful career. We are a small, values-driven group of therapists and dietitians who prioritize clinical excellence, collaboration, and work/life balance.

Role & Responsibilities

- Maintain an individual caseload (20–25 clients/week full-time; >20 part-time, flexible with ramp-up)
- Complete documentation, treatment planning, and case notes
- Collaborate with a multidisciplinary team and outside providers
- Participate in weekly supervision, consultation, and ongoing training

Qualifications

- Provisionally licensed therapist (LMSW, tLMHC, or similar)
- Internship or clinical experience in therapy settings preferred
- Strong foundation in mental health diagnosis and treatment
- Interest in specializing in eating disorder treatment
- Organized and timely with documentation

Compensation & Benefits

- W-2 position
- Expected earnings of \$89,000–\$103,000 at full caseload (22–25 clients/week)
- Strong internal referral system to support caseload growth
- Flexible scheduling
- No-show/late cancellation protection
- Supervision toward full licensure
- Short-term disability and life insurance
- Collaborative, clinician-focused work environment

Training & Professional Development

- Supervision with an IAEDP Approved Supervisor
- Support toward Certified Eating Disorder Specialist (CEDS) designation
- Specialized eating disorder training + CEU stipend
- Opportunities to develop groups or niche specialties

About the Practice Owner

Kim Curran, LISW, CEDS-C, is a Licensed Clinical Social Worker, Certified Eating Disorder Specialist, and IAEDP Approved Supervisor with over a decade of experience across outpatient and higher levels of care. She is committed to mentoring early-career clinicians in building confidence and expertise.
